

Product Owner & Project Manager

Product Owner & Project Manager with a strong foundation in **Computer Science**. Currently pursuing a **Master's in Business & Innovation (MBI)** at **Savannah College of Art and Design (SCAD)**. Journey shaped by multiple startups, building digital products from scratch by integrating user-centered design, technical feasibility, business strategy, and market research. Adept at leading cross-functional teams to deliver innovative, scalable solutions that drive real-world impact, especially 0→1

Career Experience

BMW Group

10-week sponsored industry collaboration with BMW Brazil X SCADpro

Sprint Master

Sept 2025 - Nov 2025

- Led Agile sprints and cross-functional collaboration as Sprint Master for a 21-member SCADpro x BMW team, managing workflows, delivery, and facilitated a co-creation workshop with BMW internal team.

WE AGENCY

WE Agency is a technology and product design company, I founded to turn bold ideas into real-world digital solutions. I oversee strategy, client relationships, and the complete product journey from concept to launch.

Product Owner

Apr 2023 - Present

- Founded and led a product design studio transforming bold ideas into digital products, overseeing strategy, client relationships, and full product journeys from ideation to launch.
- Directed end-to-end development for Place.club social platform, facilitating discovery workshops, leading user research, defining MVP scope, and driving UX/UI for web and mobile, resulting in securing ~\$120k seed funding.
- Built scalable design systems enabling rapid iteration and enhanced development efficiency.
- Digitized workflows for Ausbildung Assist CRM in Germany, achieving 90% efficiency gains, 110% revenue lift, and conversion rate improvements from 35% to 85%.
- Defined product roadmaps, ran Agile sprints, and delivered platforms adopted by leading German industry partners.

WE THINK APP

Product Owner

Oct 2023 - Aug 2024

- Transitioned into product ownership during shift from design studio to product-led organization.
- Spearheaded development of Blueton Analytics, India's first comprehensive cloud-based Manufacturing Execution System (MES), during company transition to product-led model.
- Led market and user research to define MVP strategy, crafted scalable UX/UI for 45% of core features, and collaborated with engineering for seamless integration.
- Managed Agile sprints, stakeholder workshops, and enterprise launches, resulting in successful first-client onboarding.
- Achieved 40% operational efficiency improvements, cost reductions, and enhanced worker performance in blue-collar manufacturing.
